

Women from the "Utatsu Minamisanriku Association of Fisheries Cooperative's Women's Group, 泊 浜 Branch" who lost their homes and jobs to the tsunami, collect these hotate shells that miraculously remained on shore, wash each individual shell by hand, and create these candles. (They were taught by a volunteer member how to make it.)

Regular wrapping 1,000¥ Vinyl bag

Gift wrapping 1,100¥ Plastic case

Miyagi Prefecture Minamisanriku-cho

Points of Caution

We pay careful attention to provide quality products, however, we would appreciate if you took into consideration the purpose for this project (recovery support) , when making a purchase.

- ① When lighting the candle, please place it on a plate that is no longer needed.
- ② When using the candle for a long time, it becomes hot, so please be careful.
- ③ The beads etc.. that are used for decoration may in rare occasion burst from the heat of the candle.
- ④ This product uses fire, so please be careful when using.
- ⑤ In the case that the string to light (kite string) is long, please cut it before use.
- ⑥ In the case that the wax breaks off, please stick back on with bond.

About advertisement

Regarding the advertisement for the sales of these hotate candles, it is done entirely by volunteers from businesses or individuals supporting the recovery. Therefore, the entirety of the income will go directly to these women making the products.
